portfolio

EDUCATION

•Jawaharlal Nehru University, New Delhi

B.Tech – Computer Science Engineering

2023 – 2027

CGPA: 7.73/10

•Moral Development Public School

CBSE Class XII

2023

92.8%

EXPERIENCE

•GetNear – Hyperlocal Marketplace | getnear.net

Software Developer, (Client Project)

Feb 2026 – July 2026

Remote

- Developed a production Flutter/Dart marketplace for Android with Firebase backend, featuring real-time buyer inquiry broadcasting via geolocation and category-based filtering using Haversine-distance algorithms.
- Implemented Firebase authentication (Email/Password, Google Sign-In, Phone OTP, anonymous), Firestore for real-time data sync, Cloud Storage, and FCM for push notifications enabling 4 user roles and inquiry lifecycle management.
- Built real-time 1:1 in-app chat system per inquiry thread with message persistence, and integrated Google Cloud Vision API for AI-powered product category suggestions on photo upload.
- Engineered Blood Donation Module and Targeted Promotions System; enforced Firestore security rules for granular role-based access control across Buyer, Seller, Donor, and Admin roles.

•Loop : The Developer's Club

Executive

Aug 2025 – June 2026

SOE, JNU

- Organized technical workshops on full-stack development and DSA; authored SOPs and executed hackathons, increasing student engagement by 20%.

PROJECTS

•CampusConnect – University Event Management

Full Stack | Node.js, Express, React, MongoDB, JWT, Google OAuth

2026

Live URL

- Built full-stack platform with RBAC, JWT and Google OAuth authentication, REST APIs for multi-step event approval workflows, and MongoDB cloud storage integration.

•Library Seat Availability System

Computer Vision | Python, OpenCV, YOLO, Flask, React

2026

Live URL

- Built end-to-end real-time computer vision pipeline processing live CCTV feeds with YOLO-based object detection for seat occupancy tracking, Flask REST API, and live React dashboard.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Firebase (Auth, Cloud Functions, FCM), Google Cloud Vision, Geolocation APIs

Backend & APIs: Node.js, Express, Flask, REST APIs, Google Maps API

Databases: Firebase Firestore, MongoDB (Atlas), MySQL

Languages: Dart, Python, JavaScript, C++, Java, Bash/Shell Scripting

Tools & DevOps: Git, GitHub, Android Studio, VS Code, OpenCV, YOLO

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Interests: Mobile Development, Full-Stack Development, Computer Vision, Competitive Programming

POSITIONS OF RESPONSIBILITY

•Executive, Loop (The Developer's Club), SOE JNU

Aug 2025 – June 2026

ACHIEVEMENTS

•Flipkart Gridlock Hackathon 2.0, Qualified for round 2 of Flipkart Gridlock Hackathon

June 2026

•2nd Runner-up BIG'O', EngQuest 3.0 – Competitive Programming Contest

Jan 2025

•IOQM Merit Certificate, Indian Olympiad Qualifier in Mathematics

2021
