EDUCATION

•Jawaharlal Nehru University, New Delhi

B.Tech – Computer Science Engineering

2023 – 2027

CGPA: 7.62/10

•Moral Development Public School

CBSE Class XII

2023

92.8%

EXPERIENCE

•GetNear – Hyperlocal Marketplace | getnear.net

Software Developer (Client Project)

Feb 2026 – May 2026

Remote

- Engineered a production Android marketplace (Flutter/Dart) for a real startup client, enabling buyers to broadcast real-time product inquiries to nearby sellers via geolocation-based filtering using Firebase Cloud Functions and Haversine-distance ranking.
- Architected comprehensive Firebase Auth system supporting 4 authentication flows (Email/Password, Google Sign-In, Phone OTP, anonymous), integrated Firestore, Cloud Storage, and FCM for end-to-end inquiry lifecycle with seller responses, buyer visit confirmation, and deal tracking.
- Developed real-time 1:1 in-app chat system for inquiry-specific buyer-seller communication, and integrated Google Cloud Vision API for AI-powered product category suggestion.
- Engineered Blood Donation Module and Targeted Promotions System with admin-managed campaigns; enforced Firestore security rules for role-based data access across Buyer, Seller, Donor, and Admin roles.

•Loop : The Developer's Club

Executive

Aug 2025 – Present

SOE, JNU

- Organized technical workshops on full-stack development and DSA; authored SOPs and executed hackathons, increasing student engagement by 20%.

PROJECTS

•CampusConnect – University Event Management

Full Stack | Node.js, Express, React, MongoDB, JWT, Google OAuth, Cloudinary

2026

campus-connect-se.vercel.app

- Built full-stack platform with RBAC, JWT and Google OAuth authentication, REST APIs for multi-step event approval workflows, and user registration management with MongoDB Atlas and Cloudinary cloud storage integration.

•Library Seat Availability System

Computer Vision | Python, OpenCV, YOLO, Flask, React

2026

central-library-jnu-live.vercel.app

- Built end-to-end real-time computer vision pipeline processing live CCTV feeds with YOLO-based object detection for seat occupancy tracking, Flask REST API, and live React dashboard reducing student library search time significantly.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, Dart, Bash/Shell Scripting

Web & Mobile: React, Node.js, Express, Flask, Flutter, HTML, CSS

Databases: MongoDB (Atlas), MySQL, Firebase Firestore (NoSQL)

Libraries & Tools: OpenCV, YOLO, Git, GitHub, Firebase, Google Cloud Vision

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Interests: Full-Stack Development, Computer Vision, Deep-Learning, Competitive Programming

POSITIONS OF RESPONSIBILITY

•Executive, Loop (The Developer's Club), SOE JNU

Aug 2025 – Present

ACHIEVEMENTS

•2nd Runner-up BIG'O', EngQuest 3.0 – Competitive Programming Contest

Jan 2025

•IOQM Merit Certificate, Indian Olympiad Qualifier in Mathematics

2021

•NTSE Stage 1, Qualified National Talent Search Examination (State Level)

2021
